

Project 1: Animal Crossing Villagers Q& A

- How Many Villagers are there?
 - There were 392 Villagers available in the original data set. However, new villagers continue to be introduced and there are currently 413 known villagers
- What types and how many of each species of animal
 - There are the following:

- Are the genders balanced?
 - Yes, there are 48% female villagers and 52% male villagers

-
- What personality types are there?
 - There are 8 different personality types:
 - Big Sister, Cranky, Jock, Lazy, Normal, Peppy, Smug and Snooty
- Can you predict an animals type based on other known factors?

- There was not an accurate model to predict a villager's animal type based on known factors. However, Personality type is based on an animal's gender.
